Subject: DRAFT, DELIBERATIVE - Updated PCB Emissions Doc for Riverside Ag. Park

Attached is an updated version of the methodology for estimating PCB emissions from Riverside Ag. Park. Please let us know if you would like any follow-up discussion on it before we begin baseline scenario modeling.

I also need to correct a mis-statement I made yesterday: The outliers we discussed were **included** in the average emissions in the document. So those numbers remain unchanged in the updated version attached.

Regards,
John
